DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/21/2006 has been entered.

Response to Arguments

2. Applicant's arguments, see pages 11 and 12, filed 4/21/2006, with respect to claims 1, 19, and 25 have been fully considered and are persuasive. The rejection of said claims has been withdrawn.

Allowable Subject Matter

3. Claims 1-15, 17-30 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1, 19, and 25, the allowability resides in the overall structure of the device as recited in independent claims 1, 19, and 25 and at least in part because said claims recite, "First and second power rails.. spaced apart.. each power rail has a slotted profile including at least one slot" (See applicant's remarks

(dated 4/21/2006) pages 11-13 which detail how the power rails of Yin are not spaced apart as claimed).

The aforementioned limitations in combination with all remaining limitations of claims 1, 19, and 25 are believed to render said claims 1, 19, and 25 and all claims dependent therefrom (2-15, 17-18, 20-24, 26-30) patentable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
